

## technical datasheet

## Mesh Degreaser

### Uses

Mesh Degreaser is used to remove any grease residue on screen mesh before the mesh is coated with emulsion. Mesh Degreaser is concentrated and could be thinned by adding 1:1 part water.

### Composition/Information on Ingredients

Mesh Degreaser is a light brown liquid detergent mix with sulphonic acids and sodium sulphates, anti-foaming- and flow agents. Mesh Degreaser is completely soluble in water and has no unusual fire or exposure hazards. Mesh Degreaser is stable and non-hazardous.

### Protective Clothing

**Respiratory** – Not necessary

**Ventilation** – Recommended

**Protective Gloves** – Rubber / PVC

**Eye Protection** - Recommended

### First Aid Measures

**General** – In case of doubt or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

**Eye Contact** – Irrigate copiously with clean water for at least 10 minutes, holding the eyelids apart. Seek medical advice.

**Skin Contact** – Wash well with soap and clean water.

**Ingestion** – If accidentally swallowed, dilute with water and obtain immediate medical attention. Keep at rest.

### Fire Fighting Measures

**Extinguishing Media** – Not required in liquid state. When dry use water, foam, CO<sub>2</sub>, powders.

### Storage

Store in a dry, ventilated place away from direct heat and sunlight. No smoking near containers. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Disclaimer: This product is manufactured under laboratory supervision from the finest raw materials and we feel will perform exactly as represented. Due to production parameters beyond our control, NSDS does not offer any warranty, expressed or implied, on the use of this product. It is the printer's responsibility to test inks and substrates prior to any production run for suitability in the end use environment.

Keep away from heat and open flame. Use with adequate ventilation. Avoid prolonged or repeated contact with skin. Avoid prolonged breathing of vapour or spray mist. Keep container closed when not in use.
